

# SN@P 4 Learners: Getting the most from your account

## About SN@P Assessment and Education

SN@P Assessment & Education is an online certification and training provider specialising in profession tailored numeracy. We work across the UK in partnership with secondary educators, higher education and apprenticeship programmes, pre-registration healthcare programmes and NHS service providers. We provide numerical assessment and education to staff and learners that is geared to the specific requirements of the healthcare sectors via our online platform.

**SN@P takes a dual role to support the assessment and education requirements of its users:**

**SN@P Assessment** is supported and recognised by Health Education England to provide certification of numerical competency through the use of standardised profession-specific questions related to the awarding organisations.

**SN@P Education** supports skill-building and development through the use of specialised numerical programmes.

**Nursing**

**Medicine**

**Pharmacy**

## Logging on to SN@P

Users can access SN@P by a link from your training provider's Moodle or Blackboard pages or logging in to the website at:

[www.snap-services.org](http://www.snap-services.org)

Clicking on Login / Register allows you to register and create a new account if this has not already been done by your education provider or employer. If your account has already been created you can login.

The login and registration process is very similar:

1. Type in your university, college or employer email address
2. Type or create your memorable password

Make sure you remember or make a note of your login details as you can only access your account if these are accurate. Only the specific email and password details you provide during registration will grant you access.

If you forget your password you can click 'Forgot Password' to have a reminder emailed to you. You can contact our dedicated team if you have problems you are unable to resolve:

Email: [info@snap-services.org](mailto:info@snap-services.org) Tel: **01925 534072**

The screenshot shows a login/register form with the following elements:

- New Users** section with a green button: "Register For An Account"
- Existing Users** section with an "Email:" label and a text input field containing "my.email@website.co.uk"
- Password:** label and a yellow password input field with masked characters "....."
- A green button: "Sign In"
- A link: "Forgot Password?"

The screenshot shows the user dashboard with the following elements:

- Top navigation bar: "dashboard", "start assessment", "my assessments", "contact us"
- Left sidebar: "Your Profile" section with fields for "Name" (Grant Student), "Email" (hester@chester.ac.uk), and "Organisation"
- Main content area: "My Practice Assessments" (orange bar) and "My Formal Assessments" (green bar), both with star icons and action links.
- Top right: "Notifications 0" and "Grant Student" dropdown.

## My SN@P Dashboard

Once you have logged in you have access to your personal information and skill-building resources via the Dashboard which is organised into several colour-coded sections:

The dashboard features a navigation bar with the SN@P logo and links for 'dashboard', 'start assessment', 'my assessments', and 'contact us'. A user profile dropdown shows 'Grant Student' with 'Notifications 0'. The main dashboard area includes:

- My Practice Assessments** (Yellow): Create, Take & View Practice Assessments. Callout: 'Create practice assessments customised to your needs'.
- My Formal Assessments** (Green): Take & View Formal Assessments. Callout: 'Access completed formal assessments taken as part of your learning goals'.
- Snap Education** (Purple): Interactive Learning & Tutorials. Callout: 'Access to your own contextualised education platform'.
- E-Tutoring** (Orange): Book An E-Tutorial. Callout: 'Book an online tutorial with a subject matter expert'.
- My Progress** (Blue): View Your Progress. Callout: 'Monitor your progression through accessing diagnostic reports'.

A 'Your Profile' sidebar on the left shows: Name: Grant Student, Email: hester@chester.ac.uk, Organisation: Test Uni, and a 'View Profile' button.

### Creating a Custom Practice Assessment

To create an assessment that is tailored to your learning needs, input your criteria into the assessment simulator and a test will be produced for you.

**Question Types:** Tailor the context of the scenarios to the aspects of drug calculations you wish to develop.

**Profession Bank:** Select the field of nursing or healthcare you are studying or working within.

**Numeracy Bank for Pre-Entry:** Core numeracy skills for healthcare can be developed to prepare for pre-entry assessments from the bank of questions. The bank is categorised into multiple math skills relevant to the user's industry.

**Create A Clinical Assessment**

Question Level: All Levels (dropdown)

Question Type: IV Drip Rate (dropdown)

Profession Bank: Nursing - All Fields (dropdown)

Number Of Questions: 20 (dropdown)

Allocated Time: 45 minutes (dropdown)

## SN@P Education

SN@P Education provides tailored and contextualised interactive learning resources to support and develop your numerical skills required to study and work within the Health profession

### Explore the SN@P education platform and take advantage of:

- **General numeracy videos:** A qualified maths teacher focusing on fractions, percentages, ratios, etc.
- **Clinical numeracy videos:** Clinicians running through real-life drug calculations and how to do them
- **SN@P-short eLearning:** snippets of basic numeracy training broken down into modules
- **Key formulas:** Revise this list and apply to your drug calculation assessments
- **E-Tutorials:** Book a tutorial with a subject expert to discuss any numerical queries via a Skype session

**Podcast 2**

- Accurately perform dose per weight calculations
- Convert dose per minute into dose per hour
- Calculate minimum dilutions and infusion periods accurately

## Book a Tutorial with SN@P Tutor Chat

SN@P offer group and one-to-one tutorials for all registered users held by subject matter experts. The sessions allow learners and professionals to discuss any numerical queries and become better prepared for assessment and numerically confident within their profession.

If you would like to sign up for a tutorial, firstly check the monthly availability by clicking on 'Book a Tutorial' on the SN@P Education page. Click the 'Book on this session' tab on the calendar or email the team directly to express your interest in attending the session.

All sessions are conducted via Skype which is a free download and our registered account is:  
[tuition@snap-services.org](mailto:tuition@snap-services.org)

## SN@P User Success Stories

See the SN@P homepage review section for more of the highly positive feedback we've had from students attending the tutorial sessions:

*“ I really don't think I would have been so successful in the maths tests without you, very grateful ”*

*“ I PASSED!!!! I GOT 100%... Thank you so much for all your help ”*

*“ I would just like to say thank you to you for your time and support. I really valued being able to have the online tutorials and will recommend the service. ”*

## Assessing your progress with SN@P Analysis Tools

SN@P's comprehensive analysis tools allow you to view past results and closely monitor your learning progress and competency in every area of your health profession.

Result graphs are categorised into subject areas, allowing areas of strength and weakness to be clearly identified, allowing you to develop and prepare effectively for exams and practice.

The grade bracket for your final assessment can also be calculated from your results with practice tests.
